Motion Made By Mr. McMahon

RESOLUTION NO. 189

IN CONNECTION WITH THE ONONDAGA COUNTY SANITARY DISTRICT: AMENDING THE
2017 COUNTY BUDGET, AND REQUESTING PROPOSALS TO SUPPORT GREEN AND
INNOVATIVE INFRASTRUCTURE IMPROVEMENTS

WHEREAS, it is necessary to amend the 2017 County Budget with respect to the Department of Water Environment Protection's Operations on behalf of the Onondaga County Sanitary District, where the estimated revenues to be collected from sewer rents were based upon the estimated number of 180,777 units, but, using data collected after the preparation of the budget, such estimated number is now 183,511 units; and

WHEREAS, a larger base of estimated units results in a reduction in the amount of fund balance needed to balance the appropriations made to support the operations in 2017, as the anticipated revenue to be collected from such base is likely to be greater than the amount within the adopted budget; and

WHEREAS, it is now intended to use available fund balance, making further funding available to support additional green and innovative infrastructure improvements for the benefit of the Onondaga County Sanitary District, targeting municipally-sponsored projects located outside the Amended Consent Judgment area for the purpose of mitigating inflow and infiltration of storm water into the sewer system, at a maximum estimated cost of \$1,200,000; and

WHEREAS, communities throughout the consolidated sewer district own and operate aging wastewater conveyances that are often impacted by the inflow and infiltration of storm water into dedicated sanitary sewers during rain events; and

WHEREAS, Onondaga County's Save the Rain program has been advanced to promote the use of green and innovative technologies to mitigate the impacts of wet weather events in areas served by combined sewer systems; and

WHEREAS, by adopting Local Law No. 1-2011, Onondaga County established a program to promote capacity management of public sewers throughout the Onondaga County Sanitary District, intended to help reduce sanitary sewer overflows into our County's waterways, as well as to reduce the costs associated with managing wet weather sewer capacity; now, therefore be it

RESOLVED, that, in connection with such program, it is requested that proposals be solicited from the several towns, villages, and city located within the Onondaga County Sanitary District, but outside of the Amended Consent Judgment area for green and innovative infrastructure projects, where such proposals shall be reviewed and evaluated by the Commissioner of the Department of Water Environment Protection, with recommendations to be made on successful proposals; and, be it further

RESOLVED, that with the benefit of such committee's review and recommendation, this County Legislature may adopt subsequent resolutions, as needed, to approve intermunicipal agreements with specific municipalities and to advance such projects on behalf of the Onondaga County Sanitary District, consistent with Article 11-A of the Administrative Code; and, be it further

RESOLVED, that documentation shall be retained as may be needed showing that activities undertaken in connection with this resolution are in compliance with the State Environmental Quality Review Act and have been subjected to the appropriate programmatic reviews; and, be it further

RESOLVED, that the Clerk of this County Legislature hereby is directed to cause certified copies of this resolution to be transmitted to each of the several towns within Onondaga County; and, be it further

RESOLVED, that the 2017 County Budget be amended as follows:
